June 29, 2011

Alabama Trucking Association  
Workers' Compensation Fund Members

Dear Ladies and Gentlemen:

Enclosed you will find a copy of the Summarized Financial Statements of the Alabama Trucking Association Workers' Compensation Fund for the four months ended April 30, 2011. These financial statements reflect the Fund has accumulated total profits, net of distributions, of \$14,268,136 set aside for future retrospective credits to be refunded as directed by State Requirements of the Alabama Department of Industrial Relations. The total amount of retrospective credits previously distributed back to participating members, since inception of the Fund, is \$44,901,395, which includes a distribution of \$5,684,077 on January 1, 2011 to respective participating members with their 2011 calendar year renewals.

This report includes the overall operations of the Fund which consists of both our Alabama and Cross Border programs. The claims losses reflected in the Consolidated Statement of Income and Deductions includes loss reserves which are required to pay incurred but not reported (IBNR) losses. These IBNR loss reserves are established at maximum conservative levels during the interim 2011 calendar year until year-end when they can be adjusted as determined by the Fund's independent Actuarial firm. As part of their year-end Actuarial analysis, they would determine the amounts of loss reserves required to pay IBNR losses resulting in the corresponding adjustment to IBNR loss reserves and Claims loss expense. In our reserving practices, the Board of Trustees maintains a very conservative approach so that the Fund is protected from the effects of irregular occurring claims losses. Even after having posted these higher IBNR reserves for losses, the combined overall operating profit for the four months ended April 30, 2011 is \$1,266,553. The Board of Trustees is pleased to report this operating performance.

In closing, we always wish to take the opportunity to reinforce our loss control emphasis where we believe the best approach to curbing increases in your company's operating expenses is to strive to maximize your company's emphasis on loss control. To support you in obtaining this goal, we have four loss control engineers working in the field, and our website ([www.atacompfund.org](http://www.atacompfund.org)) dedicated to assisting our participating member companies in their loss control and safety program efforts. We encourage you to take advantage of these resources at no cost to you, and to remember to always *Work Safe / Work Smart*.

We hope this information will assist you in evaluating the strength and quality of our program.

Respectfully,

A handwritten signature in black ink that reads "Kimble E. Coaker".

Kimble E. Coaker, CPA  
CEO and Administrator
